Manager, Oncology Pharmacy

About RVH
The Royal Victoria Regional Health Centre (RVH) is a 299+ bed acute care regional community hospital based in Barrie, Ontario. RVH provides specialized services to patients from a huge geographical region - including Simcoe County and the districts of Muskoka and Parry Sound. RVH has embarked on the largest capital project in Simcoe Muskoka history – the Phase 1 Expansion Project which will transform RVH and provide enhanced healthcare closer to home for residents throughout the region. Barrie is a rapidly growing city located north of Toronto and offers large city amenities with small town charm. A great place to live, work and play, Barrie can satisfy all your needs.

Job Description
The Manager of Oncology Pharmacy oversees and supervises the operation of the oncology satellite pharmacy in the Cancer Centre to provide oncology pharmacy services to all areas of the hospital where patients are receiving chemotherapy. The Manager will also be ensuring the safety, accuracy, and quality of chemotherapy drugs with a focus on appropriate, cost effective, evidence based care plans following the standards of practice of the Ontario College of Pharmacists (OCP), Canadian Society of Hospital Pharmacists (CSHP) and Canadian Association of Pharmacists in Oncology (CAPhO).

The Manager participates in program visioning, planning, evaluation, budget development, resource allocation, utilization management, risk management, and the promotion of service excellence and quality improvement. The Manager is responsible for the ongoing development of the clinical teams, and serves as the link between staff, physician leaders, and other clinical service areas. The Manager works on various projects with others internally and externally to RVH to promote the growth and development of their clinical areas, ensuring excellence in patient care, which contributes to the achievement of the hospital’s mission. The Manager participates in community activities and committees related to the improvement of Program services. The Manager demonstrates effective leadership, planning and project management skills combined with exceptional problem solving and change management abilities.

The Manager provides leadership in the oncology pharmacy specialty by providing education and information to staff involved in the provision of care to enhance the understanding of treatment and drug related problems in cancer patients. This is done primarily through evidence based clinical practice while maintaining a current knowledge base in this rapidly evolving specialty service. The Manager oversees the provision of chemotherapy services for the Simcoe Muskoka Cancer Program.

Qualifications
- Mandatory: BSc Phm, Licensure in Part A with the Ontario College of Pharmacists (OCP)
- Preferred: Pharm D, Masters in Pharmacy, Pharmacy Residency (ACPR)
- Three to five years of experience in leadership roles
- Ideal: 5 years hospital oncology pharmacy experience
- Minimum: 3 years hospital pharmacy experience
